B **F#** **B**
I started young, I was enthralled by your agape
B **F#** **B**
As a student I kept going colour me captured
B **F#** **B**
Disillusioned enough needed your guidance
B **F#** **B**
And so I turned over to you to lead me home

And then I said

B **F#** **E** **B**
Guru teacher, Guruji I bow to you
B **F#** **E**
Humbled by your knowledgeable education
B **F#** **E** **B**
Guruji I bow to the divine in you
B **F#** **E** **B**
Please consider me your utmost humble student

B **F#** **B**
And so I fell under your spell, I was enraptured
B **F#** **B**
Your every word I held onto til it was gospel
B **F#** **B**
You weren't deterred from your asserts we're identical
B **F#** **B**
I will admit I saw your face inside my face

[Chorus]

[Souleye Rap]

[Verse 3, same chords as above]

You had enough of subservience, and so you stopped me.
You saw my light seen as your light, gave it back to me.
I eventually saw that your jewel was in my pocket.
It had been there the whole time throughout my search.
And I finally saw...

[Chorus]

Guru teacher
Guruji I bow to you
Taken by your knowledgeable education
Guruji I bow to the divine in you

Thanks for pointing back to my inherent wisdom.
