1. When Im gone, will you take good care of everything
Will you keep wearing your wedding ring, when Im gone
And when Im gone, will you take out all the photographs,
maybe spend a moment in the past when Im gone

Will you miss me in the night will your arms reach out to hold me tight
and keep me in your dreams in your heart in your life

Sometimes I want to run to you like lovers do when love is new
just for a moment be close to you pretending Im still holding you
And even when Im far away the dreams will stay and someday
after we both chased our fantasies love will bring you back to me

2. When Im gone, Ill be thinking bout you constantly
cause you re locked inside my memories from now on
And I know that we said we needed time apart
but your love keeps pulling at my heart pulling strong
