

Mayfly

Albin Andersson

[Intro]

D

[Verse]

Did I ever tell you all was a lie?
The way I walked, the way I smiled?
The moment the door closed I thought I had died
The only thing left from there, was just to survive
I hid well in my new disguise
Born again upon pillars of lies
But down below my fighting heart was in pain
But I was shining like I'd never seen rain
It all was a lie
Shadow and regrets come strip me bare
Do whatever pleases you most, I just don't care

[Chorus]

Do you know how far a mayfly can fly?
I heard it's born the same day it dies
Does it panic when the sun's coming down?
Or does it look back on the day with a smile?
If so, tell me how

[Verse]

Did I ever tell you on that day
That most of all I felt ashamed?
For all the things that I knew you held dear
