## Honeydrip Alcoholic Faith Mission

## G Am Em

Swallow just a few to numb it Your mouth is dripping honey now Cannot fill this void inside me It s growing like a landfill

Caught em in the back
They were holding all the answers
To who I m running from these days

G

Caught you in the act

Em

You re so devious Went from letting go

C

Now you re latching on

Jumping through the hoops that you placed here

Em

G

You placed here cause you re devious

C

Now you re latching on

Give and take
My mind won t let me
Maybe I could care less
Draining all the life within me
You always need me tethered

Caught you in the act
You re so devious
Went from letting go
Now you re latching on
Jumping through the hoops that you placed here
You placed here cause you re devious
Went from letting go
Now you re latching on
Jumping through the hoops that you placed here
