There was a gentleman,
I ve always known his children s songs
Blue eyes were hardened by the war
But still he went on singing

Night can t hide a man
When his eyes are tearing
The night can t hide his cries
There s only a few of us left

Higher hills do not provide
For hearts born of coral and moss
Where rain wont flow beyond our stream
And water is captive to the well

I ve known that age old blue lies in home with sirens tombs
He s left a deep desire for a home beside the water
Shady rhythm calms the night
And that voice is never still
You know a voice is never still
And a voice is never silent

Shady rhythm calms the night
And that voice is never still
You know a voice is never still
And a voice is never silent

Higher hills do not provide
For hearts born of coral and moss
Where rain wont flow beyond our stream
And water is captive to the well
