D

A

Straight to wherever it is I m bound

I have been empty so long

So many times been so wrong

I was so lost waiting to be found

Chorus:

F#m

Bm

Every day as we grow closer

Em

A7

I find myself a wee bit more

Dm

G

I open up another door

C

And learn to give and learn to live

Travel the brand new highway

Doinâ€™ things finally my way

And now at last my life feels full

Everyday seems brighter

All of my thoughts seem lighter

I see happiness when I look at the world
