Okay, I m pretty sure these are correct, but am welcoming any and all changes, you may be able to hear something different than I can.

I think it s in the key of C#m or EM, you have to figure that out.

The second F#m in the chorus seems to sound better if you take it up one full step.

2nd F#m: e|-----| B|-----| G|----11-| D|----11-| A|----9--| E|------|

Intro- D#5-D#5-C#5-B5 [x2]
