

Nothing

Alex Lambert

Chords: **D G Em A** (same through-out the whole song)

Your eyes, so deep
As you move close to me
Your voice, so sweet
As I listen to your melody

But sometimes, I get scared 'cause there's so much going on
People all around us and I'm feeling all alone
I don't wanna share you with the rest of the world
I just wanna hold you, wanna be with my girl

Wanna fly to the moon and back
Take a trip in a submarine
Climb to the mountain high
But let's just do nothing, nothing no
Nothing
Wanna know everybody's name
Wanna bathe in sweet champagne all night
I don't wanna do a thing
So let's just do nothing, nothing no
Nothing, nothing at all, oh yeah
Nothing, nothing
Nothing, nothing at all

And we can talk
Talk until the morning comes
Don't think at all, babe
Free your mind and just let go

When I ask "can we just stop the time and stay under the sheets?"
Why you always running baby why you gotta leave?
I don't wanna share you with the rest of the world
I just wanna hold you, wanna be with my girl

Wanna fly to the moon and back
Take a trip in a submarine
Climb to the mountain high
But let's just do nothing, nothing no
Nothing
Wanna know everybody's name
Wanna bathe in sweet champagne all night
I don't wanna do a thing
So let's just do nothing, nothing no
Nothing, nothing at all, oh yeah
Nothing, nothing
Nothing, nothing at all

[Guitar solo]

Nothing, nothing at all, oh yeah

Nothing, nothing

Nothing, nothing at all
