Alex Lloyd - Never Meant to Fail
By Callum Biggs

Capo 4th Fret

Em **Am**
There s something I m feeling
C **G**
There s something that s wrong
Em **Am**
These streets are a feeling
C **G**
In the early morn
Em **Am**
The wars of last night
C **G**
These wounds will not heal
Em **Am**
If we keep believing
C **G**
Then we gotta feel

D
As it goes

Am
By the story that s already told
Em
Comes a time when we all must let go

G
What happened to the story
D **Am** **Em**
Discontented cuts inside

G **D**
It s not meant to be this lonely
Am **Em**
We were never meant to fail

Verse:

Something that s crawling
In my skin
Emotions are falling
As it begins
I lost all my virtues
Long ago
I didn t wanna hurt you

But now i know

Bridge:

As it goes

By the story that s already told

Comes a time when we all must let go

Chorus:

What happened to the story

Discontented cuts inside

It s not meant to be this lonely

We were never meant to fail

Never meant to fail

Never meant to fail

Bridge:

As it goes

By the story that s already told

Comes a time when we all must let go

Chorus:

What happened to the story

Discontented cuts inside

It s not meant to be this lonely

We were never meant to fail

We were never meant to fail

We were never meant to fail

We were never meant to fail

We were never meant to fail
