

**The Rainbow Song**  
**Alex Tan**

THE RAINBOW SONG by Alex Tan  
www.AlexTanSing.com

**C**                    **F**                    **G7**                    **C**  
Red is the colour of love, the love you give to me  
Orange is the colour of happiness, the happy kid I want to be  
Yellow is the colour of fun, the bright bright colour of the sun  
Green is the colour of the leaves swaying in the tree  
**G7**                    **C**  
So come and sway with me

**C**                    **F**  
Fly to the middle of the rainbow  
**Dm**                    **G7**  
That s where we will go  
I will take the lead, you will follow  
Follow to the middle of the rainbow  
Flap your wings and fly  
All across the sky  
We will fly so high  
**Dm**                    **G7**                    **C**  
Rainbow, you and I  
Rainbow, you and I

Blue is the colour of the sky as far as I can see  
Indigo is the colour of the night, the color of mystery  
Violet is the colour of the flower, the purple flower that smells so sweet  
These are the colours of the rainbow  
So come & play with me  
Come and flap your wings

Lalala

Flap your wings and fly  
All across the sky  
We will fly so high  
Rainbow, you and I  
Rainbow, you and I
