

Dont Pull Off My Wings  
Alexz Johnson

C Em G D

                  C          Em  
You know I m fragile  
                  G          D  
Yeah, you are too  
                  C          Em  
You try to hide it  
                  D          G  
I see through you  
                  C                          Em                  G  
You want some insurance, baby, but I think you know  
                  C                  Em                  G  
That doesn t come with me, baby let go

Em                  C  
Don t pull of my wings  
                  G                          D  
I wanna fly away to better things  
                                  Em  
I want you there, too, so find  
                  C  
Where your heart sings  
                  G                          D  
And we ll be free together  
                  Em  C  
Feeling everything

Don t pull off my wings

                  C          Em  
I always wonder  
                  D          G  
If those who control  
                  C                  Em  
Are really most frightened  
                  D  G  
Deep down in their soul  
                  C                          Em                          G  
Let s bathe in each moment, baby, yeah, they re just passing by  
                  C                  Em                          G  
Every one of them different, yeah, like clouds in the sky

Em                  C  
Don t pull of my wings

**G** **D**  
I wanna fly away to better things

**Em**  
I want you there, too, so find

**C**  
Where your heart sings

**G** **D**  
And we ll be free together

**Em C**  
Feeling everything

Don t pull off my wings

**Em C D**  
Don t pull away, don t hold back

**Em C D**  
Baby, pain is what happens when you resist love

**Em C D**  
Trust that with grace, we ll embrace

**Em C D**  
All that s coming, and let it keep lifting us up...

**Em C**  
I wanna fly

**G D**  
Fly away together, soaring through life

**Em C**  
So don t be afraid

**G D**  
Cuz I ll be with you, baby, all of the way...

I m not sure about the rest, cuz there s a chord change...  
but I hope these chords so far are right :)
