Tears Always Win
Alicia Keys

```
F#                 G#m
  Check it out
C#                        B   F#
   It feels kind crazy
```

```
     F#                              G#m
These covers, may keep me warm at night
        C#                                              B         F#
But they can t take your place, cause they never gonna hold me tight
        F#                           G#m
And these pillows, may let me rest my head
        C#                                       B         F#
But they can t say good night and tuck me in before I go to bed
```

```
   G#m                                               Ebm
Say now baby girl you re better off thats what I m telling myself
       B                         F#                       C#
But I m lying to myself cause I know I don t want nobody else
```

Refrão:
```
             F#
These lips are missing you
                    G#m
Cause these lips aint kissing you
             C#
These eyes put up a fight
                  B              F#
But once again these Tears Always Win
           F#
These arms are wanting you
                    G#m
Cause these arms aint holding you
          C#
These eyes put up a fight
                  B              F#
But once again these Tears Always Win
```

```
   F#                              G#m
These candles light up my room at night
      C#                                                   B       F#
But they can t light the room they way you did when you walked inside, oh baby
      F#                                        G#m
If these walls could sing about everything they ve witnessed
          C#                                         B           F#
Oh, it d be a sad sad song, and it ll probably sound something like this
```

```
     G#m                                                        Ebm
Say now baby girl you re better off that s what I m telling myself
          B                      F#                      C#
But I m lying to myself cause I know I don t want nobody else
