I want to run away, don t come out lookin round

C Dsus

Too busy dealing with it on my own

He s right behind me, please God I can t be found

Don t cast another stone

Feel I can wait until the sun rise
The city tells me not to go till dawn
And if he wakes, that s when my heart breaks
and I m as good as gone

How do I lie awake now, when I know I ve
Got to be moving on?
How do I lie awake now, when nothing s
Right and nothing s wrong?

Instr. (**A7sus Dsus C Dsus** x2)

And in the end, will we make amends?
Just like we re face-to-face, another dawn
And in the night or when the moon shines
Will you take me on home?
