

Stay  
Alkaline Trio

[Intro]

G C D G C D

[Verse 1]

C G C G

Things have been getting pretty rough around here.

C Em  
No coffee cups flying round the room,  
G C

just daggers born from tears.

C D  
Let s try to crawl out from under our breath

G Em  
We can never break up so I love you to death.

C D  
The man i ve become was so comfortably dumb, i believe you could mean it but you  
re not having fun

G C D  
and I m sorry.

[Verse 2]

C G C G

I learned to breathe i guess some time ago,

C Em G C  
but just recently i learned what it means to take it slow.

C D G Em  
i m lousy with excuses and you know i love to swear,

C  
so goddamnit i ll swear to whatever s out there

D  
that i love you more now than i ever have

[Chorus]

G C  
so let s pick another day

D  
to call it quits and walk away,

G C D  
let s find some other time to break down

G C  
the storm has gone and blown on through,

G D  
shake off the darkness and i will too

G C F  
you might leave me still, but not today

D G C D  
for now, can we just stay?

G C D

can we just stay?

[Verse 3]

C G C G  
you would think by now that i d be fine

C Em  
you know like really stretching out

G C  
but it would all be lies

C D G  
i m no longer in control of my own shoes

Em  
there they go

C  
quickly running out of booze

D  
drinking to kill myself just to live without you

C D  
over there, where i still stared sometime

[Chorus]

G C  
so let s pick another day

D  
to call it quits and walk away,

G C D  
let s find some other time to break down

G C  
the storm has gone and blown on through,

G D  
shake off the darkness and i will too

G C F  
you might leave me still, but not today

D G C D  
for now, can we just stay?

G C D  
can we just stay?

G C F

D G C D  
For now can we just stay?

G  
For now can we just stay?
