Came up to the surface
        Εm
I cannot remember how long I ve been swimming
Drowning
                                        \mathbf{Em}
Cause I ve grown accustomed to all of the sharks
And they re not really breathing
Uh huh
               Em
                       Bm
Now I won t just mind the gap, I ll fill it
           Em D
If I m gonna eat this mosquito of anger
CHORUS
                         Bm
I haven t really made the most of this life
From here on I ll spit back whatever don t taste right
                Em
                          Bm
One time I told my heart to shut up
              G
                  D
But I know that I can win back her trust
I owe at least that much to the both of us

G
Developed a knack for this dull conversation
I d sharpen my wit, but what s my motivation?
Don t need to be clever to tell you that I m just
A total mess and that I must throw that old self away
If I don t get right now I will always
Eat what s decayed, sleep with the snakes here in this cold grave
CHORUS
                           Bm
I haven t really made the most of this life
                                                 Bm
                                                          C
From here on I ll spit back whatever don t taste right
                  Em
                           Bm
One time I told my heart to shut up
               G
                    D
But I know that I can win back her trust
                        D
I owe at least that much to the both of us
VERSE/OUTRO
I was waiting (Waiting)
For this to happen to happen to me
But nothing s happening
I feel my skin as the sun burns in
And something in me says let it
Cause one more look might change it all
          C
One more word might change it all
         C
                  G
One more try might change it all
                   G
One more kiss might change it all
One more look might change it all
