

Dont Unplug Me
All Caps

Chorus:

E
Don t unplug me
B A
or just shut me down
E
Please just love me
B A
with your steel heart
E
I d reboot you
B A
If you d look at me
E
With those cold eyes
B A
One more time

Verse 1:

E B A
I remember, our software was compatible
E B A
I think I felt my circuit board ignite
E B A
You held my hand in your metallic grip
E B A
We may be machines but I m in love tonight

Verse 2:

E B A
Baby there is something I have to say
E B A
I think it s time for my upgrade
E B A
I would look so good in version two
E B A
But I promise that it s me, not you

[Chorus]

Verse 3 (same chord structure):

Can you hear me, you haven t moved an inch
Is this a system failure, what should I do?
Your new interface it seems to have some bugs
You re not responding, I think they broke you

Verse 4 (same chord structure):
Hello and welcome to version two
Tell me what can I do for you?
What is a hug that does not compute
Please stand by for my system reboot

[Chorus]

Verse 5 (same chord structure as chorus)
Just got the memo
about this upgrade to version two
it removes extraneous programs
that means emotions like loving you
I don t wanna lose myself
or ever have to say goodbye
I want to hold on to my consciousness
I don t want to die

Verse 1 repeat
[Chorusx2]
