

Forever In Your Hands
All That Remains

Am **C**
I know that I can stand my head high
Forget, not where I fall

G
Still I find, why and reason

Am
Yet that conflict still filling me
Mistrust venom inside of me

C
I am not the man that you see
G
Just look inside me

Em **C**
Trust in me the way I trusted you
D **Dsus4** **D**
I know we could have done this together
Em **C**
If you believed in me like I believed in you
D **Dsus4 D** **Em**
My heart would be forever in your hands

Am
How I miss February still
C **G**
Now that this becomes the moment
Of all our failures

Am
Yet that conflict still filling me
Mistrust venom inside of me
C
I am not the man that you see
G
Just look inside me

Em **C**
Trust in me the way I trusted you
D **Dsus4** **D**
I know we could have done this together
Em **C**
If you believed in me like I believed in you
D **Dsus4 D** **Em**
My heart would be forever in your hands
