

**To Live And Let Go**  
**All Time Low**

My first song! These fit exactly with the track, but feel free to correct.  
Listen  
to song for timings.

Capo on 2

**Em A Em**  
Rush of the past  
**A Em D E**  
I quietly crash and the tables turn  
**Em A Em A Em**  
You re beautiful strange, defiantly brash  
**D E**  
Be careful now  
**D E**  
Kid you re a cut above  
**D E C#**  
Always just a cut above the rest

**G D**  
If there s something left to be learned  
**A**  
Then my time is running  
**Bm (A) G**  
Why should I waste it all wasted on you?  
**G D A**  
I shouldn t be trusted to live and let go  
**G D**  
When the last of my cities have burned  
**A**  
Then what s left in nothing  
**Bm (A) G**  
Why did i waste it all wasted on you?  
**G D A**  
I couldn t be trusted to live and let go

Fill in the blanks, pencil on paper  
Disposable  
Throw away lines  
Intentional but unbelievable

Kid you re a cut above  
Always just a cut above the rest

If there s something left to be learned  
Then my time is running  
Why should I waste it all wasted on you?

I shouldn't be trusted to live and let go  
When the last of my cities have burned  
Then what's left in nothing  
Why did I waste it all wasted on you?  
I couldn't be trusted to live and let go

**Bm A Bm**

Shaken and tried

**Bm A Bm D E**

Fade and resign as the tables turn

**Bm A Bm A Bm D E**

Let's slip away the renegade life you've been dreaming of

Kid you're a cut above  
Always just a cut above the rest

If there's something left to be learned  
Then my time is running  
Why should I waste it all wasted on you?  
I shouldn't be trusted to live and let go  
When the last of my cities have burned  
Then what's left in nothing  
Why did I waste it all wasted on you?  
I couldn't be trusted to live and let go
