Capo on 2

Am G Am
Rush of the past
G Am C D
I quietly crash and the tables turn
Am G Am G Am
You re beautiful strange, defiantly brash
C D
Be careful now
C D
Kid you re a cut above
C D B
Always just a cut above the rest

F C
If there s something left to be learned
G
Then my time is running
Am (G) F
Why should I waste it all wasted on you?
F C G
I shouldn t be trusted to live and let go
F C
When the last of my cities have burned
G
Then what s left in nothing
Am (G) F
Why did i waste it all wasted on you?
F C G
I couldn t be trusted to live and let go

Fill in the blanks, pencil on paper
Disposable
Throw away lines
Intentional but unbelievable

Kid you re a cut above
Always just a cut above the rest

If there s something left to be learned
Then my time is running
Why should I waste it all wasted on you?

I shouldn't be trusted to live and let go
When the last of my cities have burned
Then what's left in nothing
Why did I waste it all wasted on you?
I couldn't be trusted to live and let go

Am G Am
Shaken and tried

Am G Am C D

Fade and resign as the tables turn

Am G Am G Am C D
Let s slip away the renegade life you ve been dreaming of

Kid you re a cut above
Always just a cut above the rest

If there s something left to be learned
Then my time is running
Why should I waste it all wasted on you?
I shouldn t be trusted to live and let go
When the last of my cities have burned
Then what s left in nothing
Why did i waste it all wasted on you?
I couldn t be trusted to live and let go
