

To Live And Let Go
All Time Low

My first song! These fit exactly with the track, but feel free to correct.
Listen
to song for timings.

Capo on 2

Bbm G# Bbm
Rush of the past
G# Bbm C# Eb
I quietly crash and the tables turn
Bbm G# Bbm G# Bbm
You re beautiful strange, defiantly brash
C# Eb
Be careful now
C# Eb
Kid you re a cut above
C# Eb C
Always just a cut above the rest

F# C#
If there s something left to be learned
G#
Then my time is running
Bbm (G#) F#
Why should I waste it all wasted on you?
F# C# G#
I shouldn t be trusted to live and let go
F# C#
When the last of my cities have burned
G#
Then what s left in nothing
Bbm (G#) F#
Why did i waste it all wasted on you?
F# C# G#
I couldn t be trusted to live and let go

Fill in the blanks, pencil on paper
Disposable
Throw away lines
Intentional but unbelievable

Kid you re a cut above
Always just a cut above the rest

If there s something left to be learned
Then my time is running
Why should I waste it all wasted on you?

I shouldn't be trusted to live and let go
When the last of my cities have burned
Then what's left in nothing
Why did I waste it all wasted on you?
I couldn't be trusted to live and let go

Bbm G# Bbm

Shaken and tried

Bbm G# Bbm C# Eb

Fade and resign as the tables turn

Bbm G# Bbm G# Bbm C# Eb

Let's slip away the renegade life you've been dreaming of

Kid you're a cut above
Always just a cut above the rest

If there's something left to be learned
Then my time is running
Why should I waste it all wasted on you?
I shouldn't be trusted to live and let go
When the last of my cities have burned
Then what's left in nothing
Why did I waste it all wasted on you?
I couldn't be trusted to live and let go
