

Weightless

All Time Low

Great new song from All Time Low. I know this is missing a few bits but the basic chords are there. Any improvements welcomed.

All Time Low
Weightless
Nothing Personal
2009

[Verse]

D **G**
Manage me, I m a mess
D **G**
Turn a page, I m a book half unread
G **A**
I want to be laughed at, laughed with, just because
G **A**
I want to feel weightless, and that should be enough

[Refrain]

G
But I m stuck in this fucking rut
A
Waiting on a second hand pick-me-up
G **A**
And I m over getting older
G
If I could just find the time
A
Then I would never let another day go by
G **A**
I m over getting old

[Chorus]

G
Maybe its not my weekend,
D **A**
But its gonna be my year,
G **D**
I m so sick of watching while the minutes pass
A

As I go nowhere

Bm

And this is my reaction

A **G**

To everything I fear

G

cause I've been going crazy

D

I don't want to waste another minute here
