Give You Blue

Notes:
    - He plays a bit with the chords on the measure, so if you want to play it
exactly like he does,
      watch the video carefully. I have only written down where the chords
generally fall on the
      lyrics, which cannot capture all of the subtleties

    - I m not sure if that s a D that he strums at the end of a verse (or slides
sometimes)
