**F**\* (033210)

The song starts with four measures of **Am**

[Verse 1]

**Am**
Spend my nights howling at the moon
Never wake before noon
    **Dm**              **E**
And when the sun it rises
        **Am**     **G**     **F**
Oh, it always rises soon
         **D**               **E**              **F**\*
 Cause I spend my nights howlin at the moon ( ey)

[Chorus]

          **Am**
I never get sleep, sleep, sleep
        **F**\*
No, I just reach, reach, reach
     **Dm**                   **E**
I can feel it on the ends of my fingers
   **Am**            **G**       **F**
And taste it on the tips of my teeth
       **D**     **E**        **Am**
So you see why I never get sleep

**Am**
Can t get no sleep, don t know why
I Can t get no sleep, don t know why
I Can t get no sleep, no no I
I can t get no sleep

[Verse 2]
(same as verse 1)

Spend my nights shooting at the stars
Trying to change the world with this guitar
I know it s a long shot
But it s working out so far
so I spend my nights shooting at the stars (hey)

[Chorus]
(same as above)

I never get sleep, sleep, sleep
No, I just reach, reach, reach
I can feel it on the ends of my fingers
And taste it on the tips of my teeth
So you see why I never get sleep

Can t get no sleep, don t know why
(Never get sleep)
I Can t get no sleep, don t know why
(Never get sleep)
I Can t get no sleep, no no I
(Never get sleep)
I can t get no sleep

Count sheep!
I already tried!
Drink whiskey!
Makes my throat too dry!
Smoke weed! (Uh-huh)
Makes my eyes all red
Take a pill, Al!
What, and end up dead?
        Dm                          E
I can feel it on the ends of my fingers
    Am            G          F
And taste on the tips of my teeth
        D        E            F*
So you see why I never get sleep

[Chorus]

        D        E            F*
So you see why I never get sleep
        D        E            F*
So you see why I never get sleep
        D        E          Am
So you see why I never get sleep!
