Verse 1:
```
C#                      G#
  Walking by your house
                        F#
I wonder if you re home
                Bbm
Then I see the light turn
        G#               C#
on And I think I should go
                        G#
A place where I can stay
                        F#
And think about the days
                         Bbm
That we were holding hands
    G#(hold)         C#
And time would fade away
                      G#
Now those days are gone
                         F#
I don t know what went wrong
                    Bbm
Was it something I said
          G#
Or maybe I waited too
C#                      G#
long To open up my eyes
                    F#
And finally realize
That everything
```

```
     Bbm
you said was just
 G#              F#
another fucking lie
           G#
So now it s over
      C#
and my life s
             F#   C#
turned upside down
F#          G#
  My head is spinning
      C#           F#     Bbm
but I can t hear a sound
F#
   That s when I
G#
think to myself

Chorus 1:
C#
  Now that I ve made
sense of all this
G#
  I hope it kills you
to think of what you
Bbm
missed You don t mean
G#          F#
anything to me
I m never gonna

Verse 2:
C#                    G#
  The summer s almost gone
                   F#
And here we are as friends
To sing the same old
Bbm
song That we ve heard
G#           C#
time and time again
C#                 G#
  It s never gonna change
                  F#
Words all stay the same
So I will turn my
Bbm
back and then we ll
```

```
G#                    C#
go our separate ways
                              G#
coz Now those days are gone
                              F#
I don t know what went wrong
                      Bbm

I m never gonna get the

Bridge:
 F#                  G#
 truth behind the lies
         F#                G#
There s nothing left to find
   F#                   G#
So here s my last goodbye

Chorus 3:
C#
  Now that I ve made
sense of all this
