

Back where it all begins
Allman Brothers Band

A **D** **E** **D**
Say you want to be a rolling stone
A **D** **E** **D**
Get your sail out in the wind
A **D** **E** **D**
Get out on the highway and it ll roll on
A **D** **E** **D**
Roll on back to someplace you ain t never been

When I was younger I was hard to hold
Seemed like I was always goin which ever way the wind blows
Now that timeless feelin calls me again
Callin me back to where it all begins

Chorus:
Moon rising sun go down
Turn my whole world around
See a star up in the sky
Tell my sweet baby please don t cry

Solo

repeat chorus

Travel out across the burning sand
Cross the ocean to some distant land
Where we ll all be singin and we ll all be friends
Carryin us back to where it all begins

Repete chorus.
