Will you go out with me tonight?

Lose it on a disco floor

Take the night bus with me tonight

Frost on the window

It s freezing out here on the pavement

But here in your arms, it s heaven

I can wait for you now, but not forever

I was surprised by how happy i was

Don t ask why it s just because

Down by the harbour in the dawn

It s not a star it s a satellite

The thought of it keeps me from sleeping

Or am i already dreaming?

Thanks, Glossop :).
