Some People Say - Allo Darlin

**C** **Am**  
We re on our way headed for the sunshine, I ve got you and a bottle of wine  
**F** **G**  
You play the song that to me has a hidden meaning

**C** **Am**  
And you said you d never been in love, and maybe I believe you, sort of  
**F** **G**  
I have a feeling that this day will be amazing

**F C G C F**  
And some people say the stars and planets make their way  
**C G**  
And some things can never change  
**F C G C F**  
And some people believe you can wish on satelllites for your dreams  
**G C**  
I wish some things would stay the same

**C** **Am**  
So I go to see my good friend, the one who sings in the riot grrrl band  
**F G**  
The way she dances on the stage, it is so awesome  
**C** **Am**  
And all I think of is where you are and if you re travelling and how far  
**F G**  
And when you listen to these songs if you re ever lonely

**F C G C F**  
And some people say the stars and planets make their way  
**C G**  
And some things can never change  
**F C G C F**  
And some people believe you can wish on satelllites for your dreams  
**G C**  
I wish some things would stay the same
