Tuning: Standard

Chords used during song

	Em	Asus	Bm
e	--3-----3-----2-----		
B	--3-----3-----2-----		
G	--0-----2-----2-----		
D	--2-----0-----4-----		
A	--2-----0-----4-----		
E	--0-----2-----2-----		

Intro- These chords keep that D sound going that you hear on the piano, you can use these or regular chords, your call. These are the ones I use though. Once the song kinda picks up you can switch to normal chords if you prefer, except on the **E7** because a normal **E7** doesn't sound right.

	D	G	E7	G
e	-----			
B	---3---3---3---			
G	---2---2---2---			
D	---0---0---0---			
A	---0---x---2---			
E	-----3-----3---			

Note: Don't get butthurt about the names of the chords I'm not sure what they should be called exactly. Just roll with it.

D
I need love that will release me
G
keep me honest, keep me happy
E7
I need a peace with understanding
G
Trying to find a softer landin

Note: During this next part (I've taken - find a way)

Instrumental- This part is mostly piano
and it is kinda hard to tell exactly what
is going on but I think these are the chords.
But it was really hard to tell so use at your own risk.
