Tuning: Standard

Chords used during song

	F#m	Bsus	C#m
e	--3-----3-----2-----		
B	--3-----3-----2-----		
G	--0-----2-----2-----		
D	--2-----0-----4-----		
A	--2-----0-----4-----		
E	--0-----2-----2-----		

Intro- These chords keep that D sound going that you hear on the piano, you can use these or regular chords, your call. These are the ones I use though. Once the song kinda picks up you can switch to normal chords if you prefer, except on the **F#7** because a normal **F#7** doesn't sound right.

	E	A	F#7	A
e	-----			
B	---3---3---3---			
G	---2---2---2---			
D	---0---0---0---			
A	---0---x---2---			
E	-----3-----3---			

Note: Don't get butthurt about the names of the chords I'm not sure what they should be called exactly. Just roll with it.
