 Dm C Gm F
                            Dm
Indo - china, Capa jumps Jeep, two feet creep up the road
                  Dm
To photo, to record meat lumps and war,
They advance as does his chance oh
                 Dm C
very yellow white flash.
                                  Dm
A violent wrench grips mass, rips light, tears limbs like rags,
Burst so high finally Capa lands,
               C
                   Gm
Mine is a watery pit. Painless with immense distance
From medic from colleague, friend, enemy,
                                         Gm F Cm Gm Dm C Gm F
foe, him five yards from his leg, From you Taro.

                                                    Dm C Gm F
Do not spray into eyes â€" I have sprayed you into my eyes.
[verse 2]
 Dm C Gm F
                           Dm
3:10 pm, Capa pends death, quivers, last rattles, last chokes
                                  Dm
All colours and cares glaze to grey, shrivelled and stricken to dots,
                       F
                             C Gm Dm
Left hand grasps what the body grasps not oh

 le photographe est mort.

Doors open like arms my love, Painless with a great closeness

To Capa, to Capa Capa dark after nothing,
                          Gm F Cm Gm Dm C Gm F
re-united with his leg and with you, Taro.
