A E D (with intro riff) x 2

```
      C#m                      Bm
We walked along the rocks for nearly an hour
      C#m                      Bm
I caught the way you looked at me in the sunlight
      C#m                      Bm
You took something before you went in the shower
      C#m                      Bm
You have suppressed the things that make you feel uptight
              E              E/B              E              E/B
If I had known you couldn't swim we would never have gone in
```

```
A              E              D
I left my love in the river
A              E              D
The only one who sees
A              E              D
I lost his hand in the current
      E              C#m              Bm
It was the life I wanted and I'd hoped for
      E              C#m              Bm
And now I am left sifting through the leaves
```

```
      C#m                      Bm
His arms so hard, I saw his skin through his t-shirt
      C#m                      Bm
The grass so tall, we knew we wouldn't be found
      C#m                      Bm
We climbed into the stream so no one will be heard
      C#m                      Bm
And in no time at all there wasn't a sound
              E              E/B              E              E/B
If I'd known you couldn't swim we would have never gone in
```

```
A              E              D
I left my love in the river
A              E              D
```
