I wish you the (**D**) very best  
In all that you (**E**) do

(**A**) This is your last separation from me  
There ll be no (**C**) more trying again  
(**G**) No more coming back  
(**A**) No more forgiving you  
No more thinking that (**C**) somehow the sum will be (**G**) different  
By using Division (**A**)

(Verse 2 the same as verse 1)  
Half of your friends would attend before they ever knew  
Why they are going  
To this party I m throwing  
They would be thinking that I would be pleading to you  
To get back together  
Well how about never?

You re gonna miss me, bad  
So funny I had to laugh  
You did this to you  
Yeah you did

Congratulations  
Now you are free  
You have earned your degree  
Yeah, you graduated  
This is your last separation from me  
There ll be no more trying again  
No more coming back

No more forgiving you  
No more thinking that somehow the sum will be different
