Ampersand
Amanda Palmer

pretty simple (and beeeaaaauuuuutiful!) song.

the verses are like so:

```
F              C                          G
I walk down my street at night the city lights are cold and violent
```

the chorus:

```
F                             C
I m not gonna live my life on one side of an ampersand
G                            F5
Even if I went with you I m not the girl you think I am
```

And the bridge

```
               Am
You ve got the headstones all ready
    C
All carved up and pretty
     G
Your sick satisfaction
      F
Those his and hers matching
```
