Massachusetts Avenue
Amanda Palmer

```
A           G               D
Every time I walk along this street, I think of you
     A          G           D
And given it s the city s major thoroughfare, I m screwed
 A          G          D
Taking an alternative s a little hard to do
G                 D
It s the street I live on
        E           A
Massachusetts Avenue
```

```
  A                     G               D
There s the crosswalk where a milk truck almost ran me down
     A          G           D
The day I finally saw you when you got back into town
  A          G          D
I don t know if you saw me,  cause I turned so quick around
 G          D           E           A
Hiding into traffic, clearly dying to be found
```

```
   A          G           D
Do you remember crying in the park and shutting up?
   A          G           D
Do you remember running and me trying to catch up?
   A          G           D
Do you remember loving me more than I could be loved?
  G           D           E             A
I chased you for so long, and when I caught you, I gave up
  A          G          D
There s no other way to get to work
  A          G              D
After all these years, it just gets worse
  A       G              D
Memories so dull and well-rehearsed
```

```
  A               G           D
Storrow Drive is pretty in the springtime
  A            G           D
Storrow Drive is pretty in the fall
 A       G            D
You don t have go home in a straight line
 A       G       D
You don t have to go back home at all
```

```
   A           G                D
There s the cemetery where I broke your heart in two
       A           G                      D
And there s the pair of stones that we had laughed was me and you
     A               G           D
I stared at them a long time, and I asked if it was true
    G               D
If I still really loved you
           E
And they answered
          A
Yes, I do

   A    G    D

(I do)

   A    G    D

   A               G                 D
People come and go, but these four lanes will never move
   A               G             D
Little peach and exes  Jeeps eventually die, too
   A         G             D
Even if the russians came and named it something new
G                 D              E           A
It would always look like Massachusetts Avenue

    A               G             D
Storrow Drive is pretty in the springtime
     A            G           D
Storrow Drive is pretty in the fall
   A             G             D
You don t have go home in a straight line
    A             G         D
You don t have to go back home at all

    A               G             D
Storrow Drive is pretty in the springtime
     A            G             D
Storrow Drive is pretty in the fall
   A         G               D
You don t have go home in a straight line
    A               G    D
You don t need to be alone at all
```
