**The Killing Type**
**Amanda Palmer**

This song is brand-new, and it s freaking catchy.
Also, I love Amanda F-ing Palmer, so I figured I d put up the chords for this
song:

```
                          B         Ebm
I wouldn t kill to win a war
                            B           Ebm
I don t get what they do it for
                      B         Ebm
It s all so terribly vague
                        C#
I see the pictures from a thousand years of battle
                        B         Ebm
And I think it s such a bore
                        B         Ebm
I walk New Orleans with a knife
                        B         Ebm
Like Mackie hidden out of sight
                        B         Ebm
But I d be useless if they jumped
                        C#
I m really not the killing type
```

**G#5**
I m not the killing type
I m not the killing type
I m not, I m not
I m not the killing type, I m not

```
                          B       Ebm
I ve got a picture of your mum
                          B         Ebm
Before the war when she was young
                          B         Ebm
She s got an etching to her right
                          C#
I think it s funny that she s looking to the left and it s her son
                        B         Ebm
I wouldn t kill to get you back
                        B         Ebm
And I ve officially been asked
                        B         Ebm
I couldn t kill to save a life
                        C#
I d rather die a peaceful piece of shit-bait, shame-filled coward, thanks
```

**G#5**

```
I m not the killing type
I m not the killing type
I m not, I m not
I m not the killing type, I m not

                                B           Ebm
But I would kill to make you feel
                                   B           Ebm
I don t mean kill someone for real
                           B           Ebm
I couldn t do that, it is wrong
                    G#5
But I can say it in a song, a song, a song

                      B
And I m saying it NOW
            Ebm7
I m saying it SO
            C#                                       G#5
Even if you never hear this song, somebody else would know
              B
I m saying it NOW
            Ebm7
I m saying it SO
            C#                                       G#5
Even if you never hear this song, somebody else will know, know, know, know

B
I just can t explain how good it feels
C#
I just can t explain how good it feels
B
I just can t explain how good it feels
C#
I just can t describe

                          B           Ebm
I once stepped on a dying bird
                        B
It was a mercy killing, I couldn t sleep for a week
Ebm
I kept feeling its breaking bones
   B
I heard
Ebm                            B
   That if you see a star at night
Ebm                              B
   And the conditions are just right
Ebm                            B
   And you are standing on a cliff
Ebm                                  C#
   Then you can close your eyes and make a wish, and take a step, and change
somebody s life
```

**G#5**
I m not the killing type
I m not the killing type
I m not, I m not
I m not the killing type, I m not

                                      **B**            **Ebm**
But I would kill to make you feel
                                            **B**          **Ebm**
I d kill to move your face an inch
                              **B**
I see you staring into space
                            **C#**
I wanna stick my fist into your mouth and twist your arctic heart

                                    **B**          **Ebm**
Yes, I would kill to make you feel
                                          **B**          **Ebm**
I don t mean kill someone for real
                                **B**          **Ebm**
I couldn t do that, it is wrong
                            **G#5**
But I can say it in a song, a song, a song

                          **B**
And I m saying it NOW
                  **Ebm7**
I m saying it SO
                    **C#**                                        **G#5**
Even if you never hear this song, somebody else would know
                  **B**
I m saying it NOW
                  **Ebm7**
I m saying it SO
                    **C#**                                        **G#5**
Even if you never hear this song, somebody else would know, know, know, know

**B**
I just can t explain how good it feels
**C#**
I just can t explain how good it feels
**B**
I just can t explain how good it feels
**C#**
I just can t describe, -ibe, -ibe

**Ebm**
DIE DIE DIE DIE DIE DIE DIE DIE DIE
**G#5**
I m not the killing type

*Note: For this song, many of the chords aren t full chords, just power chords,

but it s easy to figure out when they are and when they aren t.

**Edit: Although I put the A5 as an Am originally, reviewing it, it sounds like an
undefined chord. Hopefully that sounds closer. Thank you to ShiversTheNinja.
