

**Little House**  
**Amanda Seyfried**

Hi! I just watched Dear John and looked up this song and wasn't satisfied with the other versions, so I did my own! This song is so sweet and I really love it! It's easy to play too! Have fun:)

Playing the alternate G\* makes a slight change that sounds good. It's really easy, just add the pointer. But make sure you're not still muting(x) the A and strum it too;)

Standard Tuning    \*\*I put ellipses (...) after chords that are  
Capo on 2                strummed only once, letting the chord ring out.

Intro (The D is strummed once fast, immediately going into the C)
