

Get Away
Amandinho

Intro: **Em Bm C G** (2x)

Versos e Refrão: **Em Bm C G** (apenas repetir)

I want to get away
From this pain
I wanna try
To be ok

I have to get away
From this pain
I wanna cry
To be the same

I have declaimed
That I m afraid
To realize
That s the end

Now I m saying
What I am
I mean I m trying
Not to defame

Trying to reach what s above my eyes
Trying to touch the stars
Trying to reach what I cannot find
Trying to make a stop

I haven t said
Anything
How is it like
To be acclaimed?

I need a fucking break
From this pain
A need a time
To rearrange

Trying to reach what s above my eyes
Trying to touch the stars
Trying to reach what I cannot find
Trying to make a stop

Trying to reach what s above my eyes
Trying to cause a storm

Trying to reach what I cannot find
Trying to make a stop
