## Get Away Amandinho

Intro: Fm Cm C# G# (2x)

Versos e Refrão: Fm Cm C# G# (apenas repetir)

I want to get away From this pain I wanna try To be ok

I have to get away From this pain I wanna cry To be the same

I have declaimed That I m afraid To realize That s the end

Now I m saying
What I am
I mean I m trying
Not to defame

Trying to reach what s above my eyes Trying to touch the stars Trying to reach what I cannot find Trying to make a stop

I haven t said Anything How is it like To be acclaimed?

I need a fucking break From this pain A need a time To rearrange

Trying to reach what s above my eyes Trying to touch the stars Trying to reach what I cannot find Trying to make a stop

Trying to reach what s above my eyes Trying to cause a storm

Trying to reach what I cannot find Trying to make a stop
