**Would You**
**Amber Pacific**

[Intro]
**B Gb Ebm Db B Gb Db**

[Verse]
**B   Gb**
If there s a reason to believe in what I m feeling
        **Db**                        **B**
Did t have to go, didn t have to go
**B**               **Gb**
I broke a promise to be honest, now I m leaving
        **Db**                   **B**
All I ve ever known, all I ve ever known
**Bm**        **B**    **Ebm**                  **Db**
An empty space inside, a cold and sleepless night
      **B**        **Db**
And I can t, I cannot get you off my mind

[Chorus]
**Gb**           **Db**
Would you give it up if it meant
    **Ebm**            **B**
Our love was enough to carry you?
**Gb**              **Db**
Would you face the truth if it meant
      **Ebm**          **Db**
That you would have to follow through?
**Gb**      **Db**     **Ebm**
Every moment that we made fades away
          **B**    **Db**         **Ebm**  **B Gb Db**
It s not too late to turn the other way

[Verse]
**B**                         **Gb**
I put my heart in being sober but it s over
      **Db**
Never meant to, I never meant to hurt you
**B**                        **Gb**
I saw this coming, now you re running
                     **Db**
And I m wishing I could hold you
**Db**
Something that I can t do
**B**             **Ebm**                  **Db**
An empty space inside, a cold and sleepless night
      **B**        **Db**              **Gb**
And I can t, I cannot get you off my mind

[Chorus]
**Gb**              **Db**
Would you give it up if it meant
     **Ebm**                    **B**
Our love was enough to carry you?
**Gb**                   **Db**
Would you face the truth if it meant
       **Ebm**                **Db**
That you would have to follow through?
**Gb**          **Db**          **Ebm**
Every moment that we made fades away
                **B**         **Db**            **Ebm**   **B Gb Db**
It s not too late to turn the other way

[Verse]
**B**                             **Db**       **B**
It s not too late for you to change
**Db**              **Gb**
I ll turn away
