I m a girl... so what.. I can still play guitar..
and tab quite nicely.. i think... ;p

they are a new band, very good and kinda different, up and coming.
Ultimate guitar doesnt have this song, so i decided to tab the thing by myself..

I couldn t figure out the solo.. so if you have it just send me it or if you
have any
problems with the chords I got here then just let me know.. :P

Theres 2 guitars, one thats rhythm and the other that does some riffs.

Enjoy! :)
