Verse 1:

E
Have you ever known
A
What it s like to be nervous, alone

What it s like when the time slips
F#m **B** **E**
Right out your hands, too late, now it s time to go
E
And you wish
A
You wish for a moment like this

Where the time would stand still and you d
F#m **B** **E**
Kiss her with all that you have, just to let her know
F#m **A**
Cause sometimes it s hard to swallow
E **B**
But it s the way that I feel can make red lights a go
A **B**
And there s nothing to stop me now

Chorus:

E **A**
Maybe Iâ€™ll scream out loud
F#m **B**
I m fighting my way to the top so that you
E
Just maybe
A
Might hear me now
F#m **B**
I take a deep breath let it out

Verse 2:

E
Have you ever known

That I m right there behind you and
A **F#m**
So unbelievably taken by all that you are
B **E**

Everything that I ll never know
F#m A
And sometimes it s hard to swallow
E
But if you d give me the chance
B
I ll never let go
A B
Cause there s nothing to stop me now

(repeat chorus)

Bridge:

B
As I scream at
F#m
The top of my lungs, make a scene
A B
Just to catch your attention, and all in between
B F#m A
Your beauty at once had me lost in the meaning

E
Maybe
A
I ll scream out loud
B
I m fighting my way to the top

E
Maybe
A
I ll scream out loud
F#m B
I m fighting my way to the top so that you

E
Just maybe
A
Might hear me now
F#m B
I take a deep breath let it out
F#m B E
I take a deep breath let it out
