

I Saw A House
Amiria Grenell

A neat wee song by a great kiwi artist! Seen this live so it should be reasonably accurate, also the music video shows her playing in some parts too if you weren't certain of any parts (: Enjoy.

Note: The Em7 and G chords in the verses are played without your pinky on the e string, but rather this note is used as a hammer on in the G chord to get that nice effect that is heard. This is just my interpretation. The Em7 and G chords are also hammered on throughout the verses, but it still sounds fine if you find

it too difficult. The chorus changes to bar chords, but open chords sound fine too if you cannot be bothered :)
First tab, be nice! (:
