Comments:

This song was quite annoying to tab, at some parts of the song the guitarist seems to be toying with tremolo lasts. With this song you need to time everything
 I am sure i got this right, Im really sorry I didn t have the patience to secure the timing
 but if you need help contact me, im more than willing to help. This tab is done by hand so

The Outro is really confusing sometimes, its not tremelo work, its just fast alt. Picking.
