[Verse 1]
 Some days I can t get myself out the box
 Some days I can t find keys to any locks
  Some days I feel like it s all overblown
 And then I look at you and I don t feel so alone
And I say...
[Chorus]
Hey, let your little light shine
Let your little light shine for the world to see
Hey, let your little light shine
Let your little light shine for the world to see
[Verse 2]
 Some days I can t get myself out the race
 And all that cold wind blows right in my face
 Some days I feel like I m against the wall
 But then I look at you standin strong and tall against it all

Hey, let your little light shine
