

Shooting Star
Amy Diamond

Tabbed by Mcfly

Ebm **C#**
Sun s busting in through the drapes, I awake as a new day starts
B **C#**
Feeling I am clear in my mind, I m alive, I m in love, feel it in my heart
Ebm **C#**
The day opens up on the world like a dream, and I start to smile
B **C#**
This thing I have with you s not a feeling, a sense it is more like a state of
mind

(Chorus)

F# **C#**
Wherever you go I will follow, I just wanna be where you are
Ebm **B**
Like a shooting star, you shine brightest of them all
F# **C#**
Wherever you go I will follow, and it doesn t matter how far
Ebm **B**
Like a shooting star, you shine brightest of them all

Ebm **C#**
Once I was torn, I was lost, I felt weak until I found you
B **C#**
You hit me with the spark, a light in your eyes, keep me cool and I feel brand
new
Ebm **C#**
Like a breath of fresh air like a natural high, I lose sense of time
B **C#**
This thing I have with you s not a feeling, a sense it is more like a state of
mind

(Chorus)

(Instrumental)

F# **B**
Love is just like, flashes of light
Ebm **C#**
Streaming throughout my heart

F# **C#**
Wherever you go I will follow, I just wanna be where you are

Like a shooting star, you shine brightest of them all

Wherever you go I will follow, and it doesn't matter how far
