

Shooting Star
Amy Diamond

Tabbed by Mcfly

F#m **E**
Sun s busting in through the drapes, I awake as a new day starts
D **E**
Feeling I am clear in my mind, I m alive, I m in love, feel it in my heart
F#m **E**
The day opens up on the world like a dream, and I start to smile
D **E**
This thing I have with you s not a feeling, a sense it is more like a state of
mind

(Chorus)

A **E**
Wherever you go I will follow, I just wanna be where you are
F#m **D**
Like a shooting star, you shine brightest of them all
A **E**
Wherever you go I will follow, and it doesn t matter how far
F#m **D**
Like a shooting star, you shine brightest of them all

F#m **E**
Once I was torn, I was lost, I felt weak until I found you
D **E**
You hit me with the spark, a light in your eyes, keep me cool and I feel brand
new
F#m **E**
Like a breath of fresh air like a natural high, I lose sense of time
D **E**
This thing I have with you s not a feeling, a sense it is more like a state of
mind

(Chorus)

(Instrumental)

A **D**
Love is just like, flashes of light
F#m **E**
Streaming throughout my heart

A **E**
Wherever you go I will follow, I just wanna be where you are
F#m **D**
Like a shooting star, you shine brightest of them all
A **E**

Wherever you go I will follow, and it doesn't matter how far

F#m **D**

Like a shooting star, you shine brightest of them all

A **E**

Wherever you go I will follow, I just wanna be where you are

F#m **D** **A**

Like a shooting star, you shine brightest of them all
