[Verse 1]

G

Take this man to prison

The man heard Herod say

And then four squads of soldiers came

C/G **D/G G**

And carried him a---way

G

Chained up between two watchmen

C/G **D/G G**

Peter tried to sleep

But beyond the walls

C/G **D/G G**

An endless prayer was lifting for his keep

[Pre-Chorus 1]

C

Then a light cut through the darkness

G

Of a lonely prison cell

C

And the chains that bound the man of God

G

Just opened up and fell

D/F#

And running to his people

C/E

Before the break of day

G

There was only one thing on his mind

C/G **D/G G**

Only one thing to say

The hands that lead me home

All day and through the night

When the enemy is closing in

I know sometimes they fight

To keep my feet from falling

I ll never turn away
