Goodbye

```

C
Do you see me like I see you?
Do you hear me when I speak of you?
Do you feel me loving you?
Did you see me, cause I see you.
                    C
                                Am
But its goodbye, goodbye goodbye
            Am
goodbye, goodbye again
С
I saw your world from the side
Of the simple glances from the pleasures you ve pried
And now its back from my own reality
I wish you could save.... me
                         G
But its goodbye, goodbye goodbye
            Am
goodbye, goodbye again
С
He chases the snow while I chase my dreams
Soon my life just got cold
I m dancing alone in the darkness and always see
To be with him is to be bold
                    С
                        G
But its goodbye, goodbye goodbye
            Am
goodbye, goobye again
                                Am
Cause its goodbye, goodbye goodbye
```

goodbye, goodbye again..... and again..... and again..... and again.
