Heavier Riff: Distortion

```

G |-----0-----|  -- |-----3---2---0-----|
D |----2--3---3-2-0--|x3|-----0---0---3--2--3-----|
A |--00-----|  -- |-----|
D |--00-----|  -- |-----|

```

..

For the verse just do:

```

e |-----|
B |-----|
G |-----|
D |--0-0---|
A |--0-0---|
D |--0-0---|

```

Then the main distorted riff. Listen to the song to figure out timing.

..

The chorus is almost exactly the same as the clean intro with just a little bit rhythm and 2 or so notes taken out.

I think the high part may be played on a keyboard or a synth but if you want to put it guitar the notes are just:

```

e |-----10---10-10---10---10---10---10-10-----|
B |-----|

```

G|-----|
D|-----|
A|-----|
D|-----|

And that s the song. I ve covered all the parts as far as I know and if you listen to song it s very easy to figure out all the rhythms and what goes where. This is my first on the internet and i want some feedback so please rate! Peace!
