

**Everything Burns**  
**Anastacia**

Intro: **Bm A F#m G**

Verse 1: (Anastacia)

**Bm**                    **A**                    **F#m**                    **G**  
She sits in her corner, singing her self to sleep  
**Bm**                    **A**                    **F#m**                    **G**  
Wrapped in all of the promises that no one seems to keep  
**Bm**                    **A**                    **F#m**                    **G**  
She no longer cries to herself no tears left to wash away  
**Bm**                    **A**                    **F#m**                    **G**  
Just diaries of empty pages feelings gonna strafe  
Chorus:

**G**                    **A**  
But she will sing  
                                 **Bm**                    **G**  
Till everything burns till everyone screams  
                                 **Em**                    **A**  
burning their lies burning my dreams  
                                 **Bm**                    **G**  
all of this hate and all of this pain  
                                 **Em**                    **A**  
burn it all down cause my anger raise till everything burns

Verse 2: (Ben)

**Bm**                    **A**                    **F#m**                    **G**  
Walking through life for notice, knowing that no one cares  
**Bm**                    **A**                    **F#m**                    **G**  
Too consumed in their mascarade, no one sees her there  
Chorus:

**G**                    **A**  
And still she sings  
                                 **Bm**                    **G**  
Till everything burns till everyone screams  
                                 **Em**                    **A**  
burning their lies burning my dreams  
                                 **Bm**                    **G**  
all of this hate and all of this pain  
                                 **Em**                    **A**  
burn it all down cause my anger raise till everything burns
